New Interior At Red Lobster

Six Cincinnati-area Red Lobster restaurants have brand-new decor. It's what the company calls the Bar Harbor look, intended to evoke the coast of Maine.

Within the restaurants, guests will find cozy, dark-wood paneling, warm-toned fabrics, soft lighting and nautical décor, including seaside-inspired artwork.

New exterior features include shingle and stone towers, lanterns, flags and Adirondack-style benches.

The menu now includes fish and seafood grilled over wood. The Fresh Fish menu is updated daily, and more culinary-forward items, new flavors and seafood combinations have been added.

You can see the new look at the restaurants on Montgomery Road, Springdale Road, Glenway Avenue, Cincinnati Mills Drive and Ohio Pike along with the Florence location.
